

I purchased XM radio for my new 2003 vehicle because I liked the format and wide array of choice for my long Southern California commutes. I strongly reject NAB's petition 04-160 and support XM's ability to provide the kind of programming that I demand and deserve. If NAB is finding it more difficult to compete against XM they should strive to provide a better service themselves. This is what a free enterprise system economy is all about. Please reject Petition 04-160
